

MANN+HUMMEL ProVent® oil separators for open and closed crankcase ventilation systems

- **Highly efficient oil separation** through use of MANN+HUMMEL filter media
- **Low running costs** via reduced oil consumption
- **Easy servicing** – manual change of filter element without the need to dismantle hoses
- **Flexible installation** through universal position of connections
- **Robust modules** with low weight through modern design

Blow-By [l/min]	Filter type	Ext. Ø [mm]	Length [mm]	Weight [kg]
100 - 200	ProVent® 200	110	220	0.4
200 - 400	ProVent® 400	160	300	0.7

Further information is available in the MANN+HUMMEL ProVent® catalogue (part no. 19 944 10 101).
